**CHESTERTON
HIGH SCHOOL**

INTERNSHIP PROGRAM

Chesterton High School is interested in connecting with our community businesses to support our high school students in obtaining work-based learning experiences. Our goal is to provide students with structured opportunities to understand the connection between classroom learning and the work environment, while participating as productive employees/volunteers in a company or organization. Having a CHS Intern not only helps students within the community get started; it enhances the local workforce as a whole.

WIN-WIN SITUATION

An intern can provide an extra set of hands that can often help finish projects accomplish goals. These projects can help our students learn a new skill, learn more about the industry, and give them a fantastic learning experience.

MENTORSHIP OPPORTUNITIES

By hosting an intern, it provides your current employees an opportunity to connect with the high school students, meet them, speak with them and ultimately, mentor them.

SOCIAL STRATEGY

Each generation brings with it greater tech-savvy than the last and each brings its own unique social approaches. Interns can help enhance your current strategy and build your following.

FRESH PERSPECTIVE

Bringing in students who don't see your business from the inside every day opens up an opportunity for novel perspectives that can break up the status quo.

POTENTIAL NEW HIRE

Creates a loyal employee not only for your business, but for businesses the student works for in the future.

INCREASED PRODUCTIVITY

CHS Interns are eager to learn, ready to work, and want the chance to prove their value. This energy can rub off on current employees, often improving the overall work environment.
